

# Positive Money Handling

The two sides of duality are: “positive + negative, light + dark, good + bad”. Money also has two sides, caused by man.

The origin and cause of our emotional and monetary malaise can be found within our family history. This leads us to our roots and to the roots of our family.

This journey takes us to our suffering, pain and sorrow caused by the family. This is the way we learn to forgive. And we reconcile with our history. At the end is the healing of our ancestors as well as ourselves, and thus our connection to money.

The next steps are:

- Changing our beliefs and conditioning.
- Let JOY flow in our job and activities.
- Opening our HEART.
- RELEASING money and not holding on to it anymore.
- Allocating money into PEOPLE and the EARTH and making them happy.
- Have CONFIDENCE that money will be returned.
- BELIEVE in the big picture.

Through our transformation **the money flows**.

- **Inner wealth** becomes more important than outer wealth.
- **Joy** and **lightness** instead of greed, fear, and worry.
- **Love** instead of envy, jealousy, and envy.

After that, we look at money with different eyes - with a new CONSCIOUSNESS.

The TREE is planted! It represents us and gives us STABILITY.

It's an amazing time. Old things go and new things come. A new epoch has started.
